Web Design QLD

Standard website \$799

Standard Website package includes everything you need to get you or your business on the internet!

For just \$799 your local Activ advisor will discuss your needs and then design and build your standard website in a matter of days!

The \$799 covers everything below for the first year:

- **Site design** - your local advisor will discuss your requirements and design a website that fits your needs
- **Domain name** - Choose a name for your website and we do the rest
- **Site management** - From time to time you may have questions for your local advisor and you may need help to do something on your website, don't worry there are no extra costs
- **Site hosting** - To make your website live on the internet it is called 'hosting' do not worry about technical aspects like this, we handle all of this for you
- **Email addresses** - Have up to 5 Email addresses for your website
- **Website statistics** - Find out who is visiting your website and when using our 'live' website reporting system
- **Site updates** - Your local advisor will make all your required amends throughout the year as part of the service

After the first year there is a small ongoing charge of \$300 each year to cover the ongoing support and maintenance of your website.

Online shop \$1499

Our Online Shop includes everything you need to get your products or services on the internet

For just \$1499 your local Activ advisor will discuss your needs and then design and build your online shop in a matter of days!

The \$1499 covers everything below for the first year:

- **Site design** - your local advisor will discuss your requirements and design a website that fits your needs
- **Domain name** - Choose a name for your website and we do the rest
- **Site management** - From time to time you may have questions for your local advisor and you may need help to do something on your website, don't worry there are no extra costs
- **On-site training** - Your local advisor will go through how to operate your online shop and will supply a manual that makes using your site nice and easy
- **Site hosting** - To make your website live on the internet it is called 'hosting' do not worry about technical aspects like this, we handle all of this for you
- **Email addresses** - Have up to 5 Email addresses for your website
- **Website statistics** - Find out who is visiting your website and when using our 'live' website reporting system
- **Site updates** - Your local advisor will make all your required amends throughout the year as part of the service

After the first year there is a small ongoing charge of \$600 each year to cover the ongoing support and maintenance of your website.
